

Kurstitel *Academic English in IT

Allgemeine Informationen

Modultyp: Nichttechnisches Wahlpflichtfach

Lehrform *: Seminar Projekt

Sprache *: English

Modulbeschreibung: (ggf. Link hinterlegen)

This elective deals with familiarising participants with the correct standards and conventions for the production of academic papers in standard English. In addition to exercises aimed at developing fluency, further practice is offered in the development of accuracy within the bounds of the discipline of Academic English in Information Technology.

An important part of the course is group work in which participants evaluate a text, generated by ChatGPT, on the subject of Academic English in IT, applying some of the criteria gleaned from the above-mentioned content. This is done with a view to optimising the generated texts to conform with the standards set out.

Anmeldung

Beschreibung der Anmeldemodalitäten *Die Anmeldung ist möglich ab 05.03.2024, 16:00.
